How should students access information for your class? Everything will be posted in Google Classroom.

Where should assignments be turned in? Students can send the assignments to me by way of email or by posting it in Google classroom.

Is there any other information student should know about your class? We will do work in No, Red, Ink. Google classroom, some Youtube videos, we will do much of our work through our book and our reading/writing companion.

What are your classroom expectations for remote students? Students should have their camera on so they can be seen. Students should have their microphone off unless they are asking a question or are being called upon.
